SeifEleslam Gouda

Front-End Developer

Address: El-Imam Malek Str. 27 62514
Beni-Suef, Egypt
Phone: +20 109 097 4996
Email: seifeleslamgouda@gmail.com

I'm a fusion of engineer and developer, driven by a thirst for knowledge and a passion for building impactful projects. My unique blend of Civil Engineering expertise and Computer Science proficiency, honed through rigorous studies and hands-on experience, gives me a fresh perspective on problem-solving and innovation. With JS and its frameworks (React.js & Angular) under my belt, I've built robust applications – from a multi-tenant e-commerce platform to a dynamic gaming center dashboard.

TECHNICAL SKILLS

Proficiency: HTML | CSS | Javascript | Typescript | React.js | Next.js | Tailwind CSS | Angular | Debugging

Familiar With: Node.js | Express.js | Postgres | MongoDB | RxJS | Supabase | PHP | Python | Redux

---

WORKING EXPERIENCE

Freelance - *Front-End Developer*   NOV 2022 - PRESENT

Management System - *React.js Developer*   OCT 2022 - NOV 2022
React.js | Typescript | ChakraUI | Zustand
Developed the front-end of a management system for gaming centers
that is used with several gaming centers to manage the time of
devices and other services like Food and beverage service (Demo),

Integrating Features - *React.js Developer*   NOV 2022
JavaScript | Typescript | Next.js
Integrating the snap-pixel tracking tool in a Next.js website to track the
advertising effectiveness and users' activities.

Multi-tenancy E-commerce System - *React.js Developer*   MAY 2023
Typescript | Next.js | Supabase | Redux
Development of a multi-tenancy system that creates online commercial
stores providing software solutions for small markets and service
providers to have their E-commerce. Worked with Next.js on the
dashboard and the store front-end, and used Supabase for database
handling. Created reusable components that ensured the efficiency
and flexibility required for a multi-tenancy system

York Towers CRM - *JavaScript Developer*   NOV 2023 - DEC 2023

HTML | **TailwindCSS** | **JavaScript** | **PHP**

Added features to York Towers Company's CRM for reporting sales and financial flow, which increased the efficiency of the reporting process, making it 10 times faster in addition to increasing the accessibility of the data.

Webly Tech - *Angular Developer*   JUN 2023 - NOV 2023

Angular | **Typescript** | **RxJS** | **Primeng**

Worked as a front-end developer with the following responsibilities:

- Developing Web Applications with optimized and clean code
- Guide team members through the code and job requirements
- Meeting with clients, defining requirements, and reporting to the team
- Defining API requirements & reporting Issues to the backend

Medical Service Dashboard

Developed the dashboard of a medical service mobile app. Worked with Angular and RxJS to maintain users' access and permissions

PERSONAL PROJECTS

- Cloned a heavy animated landing page using React.JS and Framer Motion. Demo, Repo.   MAR 2022

- Built a complex modifiable form application with several possible question types. Demo, Repo.   SEP 2023

  Built UI for responsive listing and global searching. Demo, Repo.

EDUCATION && COURSES

ALX - *Software Engineering Full Stack Programme*

Aug 2023 - present

University of the People - *Bachelor in Computer Science*

Nov 2017 - Dec 2022

Magna Cum Laude, CGPA 3.83

Beni Suef University - *Bachelor in Civil Engineering*

Sep 2016 - Oct 2022
